

GROWING PRODUCTION IN A LARGE PERUVIAN SILVER DISTRICT

Corporate Presentation | February 2025

TSX.V: AGX | OTC: AGXPF | FRA: AGX

CAUTIONARY STATEMENTS

The information in this presentation is in summary form and does not purport to be complete. It is not intended to be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any particular statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" investor.

Forward looking or "should" occur. Such statements reflect Silver X's current views and intentions with respect to future events, and current information available to Silver X, and are subject to certain risks, uncertainties and assumptions. Many factors could cause the actual results, performance or achievements that may be expressed or implied by such forward-looking information to vary from those described herein should one or more of these risks or uncertainties materialize.

Certain of the "risk factors" that could cause actual results to differ materially from the Company's forward-looking statements include, without limitation risks relating to the following: uncertain potential impacts of COVID-19 pandemic to Silver X; the high degree of risk involved in the business of mineral deposit exploration and extraction; risks relating to title on mineral properties and mining rights; fluctuating mineral prices adversely affecting the ability to raise capital to fund ongoing operations; financing and share price fluctuation risks, including substantial capital requirements; risks to operations in Peru; political instability; currency fluctuations; nationalization of the mining industry; opposition from local residents and non-governmental organizations; changes to governmental regulations or regulatory requirements in Peru; environmental and social risks; licensing and permitting risks; insurance not covering all the potential risks associated with operations or the inability to maintain insurance to cover risks at economically feasible premiums or for other reasons; no mineral resources or reserves on Silver X's properties; development and operating risks; reliance on management and dependence on key personnel; health and safety risks; supply chain interruptions; risks relating to foreign operations; competition from companies or individuals with substantially greater financial and technical resources than Silver X, the expected closing of the acquisition of the Revenue Mine including obtaining all court and required regulatory approvals, expected potential expansion of the Company's future cash flow, and other factors beyond the control of the Silver X. Should any factor affect Silver X in an unexpected manner, or should assumptions underlying the forward-looking information prove incorrect, the actual results or events may differ materially from the results or events predicted. Any such forward-looking information is expressly qualified in its entirety by this cautionary statement. Moreover, Silver X does not assume responsibility for the accuracy or completeness of such forward-looking information. The forward-looking information included in this presentation is made as of the date of this presentation and Silver X undertakes no obligation to publicly update or revise any forward- looking information, other than as required by applicable law.

This presentation has been prepared by Silver X using its best efforts to realistically and factually present the information contained herein. However, subjective opinion, dependence upon factors outside Silver X' control and outside information sources unavoidably dictate that Silver X cannot warrant the information contained to be exhaustive, complete or sufficient. In addition, many factors can affect the Presentation which could significantly alter the results intended by Silver X, rendering the Presentation unattainable or substantially altered. Therefore, readers should conduct their own assessment and consult with their own professional advisors prior to making any investment decisions.

This presentation does not constitute a prospectus or public offering for financing, and no guarantees are made or implied with regard to Silver X's proposed ventures. There is no guarantee that valuable minerals can be produced profitably from our projects, or at all. The presentation is being disclosed to the reader for the reader's discussion, review, and/or evaluation only.

Non-IFRS Measures and Presentation of Financial Information: This presentation of Silver X Mining Corp. refers to non-IFRS financial performance measures, such as all-in sustaining costs ("AISC") per silver equivalent ounce produced. Readers should refer to the "Non-IFRS Performance Measures" section of the Company's Management's Discussion and Analysis ("MD&A") for the three and six months ended June 30, 2024, available at www.sedarplus.ca for explanations of these measures and reconciliations to the Company's reported financial results. As these non-IFRS performance measures do not have standardized meanings under International Financial Reporting Standards ("IFRS"), they may not be directly comparable to similarly titled measures used by others. Non-IFRS measures should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS.

Unless specified otherwise, all references to dollar amounts or \$ are to United States dollars.

Historical Geological Information: Any geological information and results presented which were not conducted by Silver X are believed to be accurate but have not been verified.

Cautionary Note Regarding Production Without Mineral Reserves: The decision to commence production at the Nueva Recuperada Project and Silver X's ongoing mining operations as referenced herein (the "Production Decision and Operations") are based on economic models prepared by Silver X in conjunction with management's knowledge of the property and the existing estimate of inferred mineral resources on the property. The Production Decision and Operations are not based on a preliminary economic assessment, a pre-feasibility study or a feasibility study of mineral reserves demonstrating economic and technical viability. Accordingly, there is increased uncertainty and economic and technical risks of failure associated with the Production Decision and Operations, in particular: the risk that mineral grades will be lower than expected; the risk that additional construction or ongoing mining operations are more difficult or more expensive than expected; and production and economic variables may vary considerably, due to the absence of a detailed economic and technical analysis in accordance with National Instrument 43-101 -Standards of Disclosure for Mineral Projects of the Canadian Securities Administrators ("NI 43-101").

Qualified Persons: The persons with overall responsibility for approving Silver X mining technical disclosure are John E. Bolanos and David Heyl, both Certified Professional Geologists, and independent Qualified Persons under NI 43-101 regulations. John E. Bolanos and David Heyl have reviewed and approved the technical information in this presentation.

This presentation does not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of the securities of Silver X in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of such jurisdiction. The securities of Silver X have not been and will not be registered under the United States Securities Act of 1933, as amended, or any state securities laws and may not be offered or sold within the United States, unless an exemption from such registration is available, information concerning the assets and operations of Silver X included in this presentation has been prepared in accordance with Canadian standards and is not comparable in all respects to similar information for United States companies.

PRODUCING SILVER IN ONE OF THE LARGEST UNDERDEVELOPED SILVER DISTRICTS IN PERU

Silver X VISION

To consolidate and develop undervalued assets, creating value by adding resources and increasing production; aspiring to social and environmental excellence.

Silver X MISSION

To be a premier silver company delivering outstanding value to all stakeholders.

WHY SILVER – A PRECIOUS & INDUSTRIAL METAL

Silver is a Critical Material for the Green & Digital Economies

Industrial Applications

Silver's electrical conductivity makes it an essential material in digital economy from smart phones and laptops, to battery electric vehicles (BEVs)

Green Energy Transition

Silver is a key component in photovoltaic and solar panel production. As the world relies more on sustainable energy solutions, the silver demand is expected to follow.

Medical Uses

Nano silver is increasingly essential in healthcare and modern medical settings, used in burn creams, bandages, advanced medical devices and antimicrobial coatings.

Monetary Investment

Silver remains a valuable asset for collectors and investors, often serving as a hedge against gold and economic volatility.

56%

of global silver usage is attributed to green technologies, encompassing electric vehicles and solar panel production.⁽¹⁾

**55M
Oz
Ag/yr**

is currently consumed by the automotive sector, with this figure expected to rise to 90 million ounces by 2025.⁽¹⁾

**~655
Moz**

Record industrial demand (+11% YoY) in 2023

**~184
Moz**

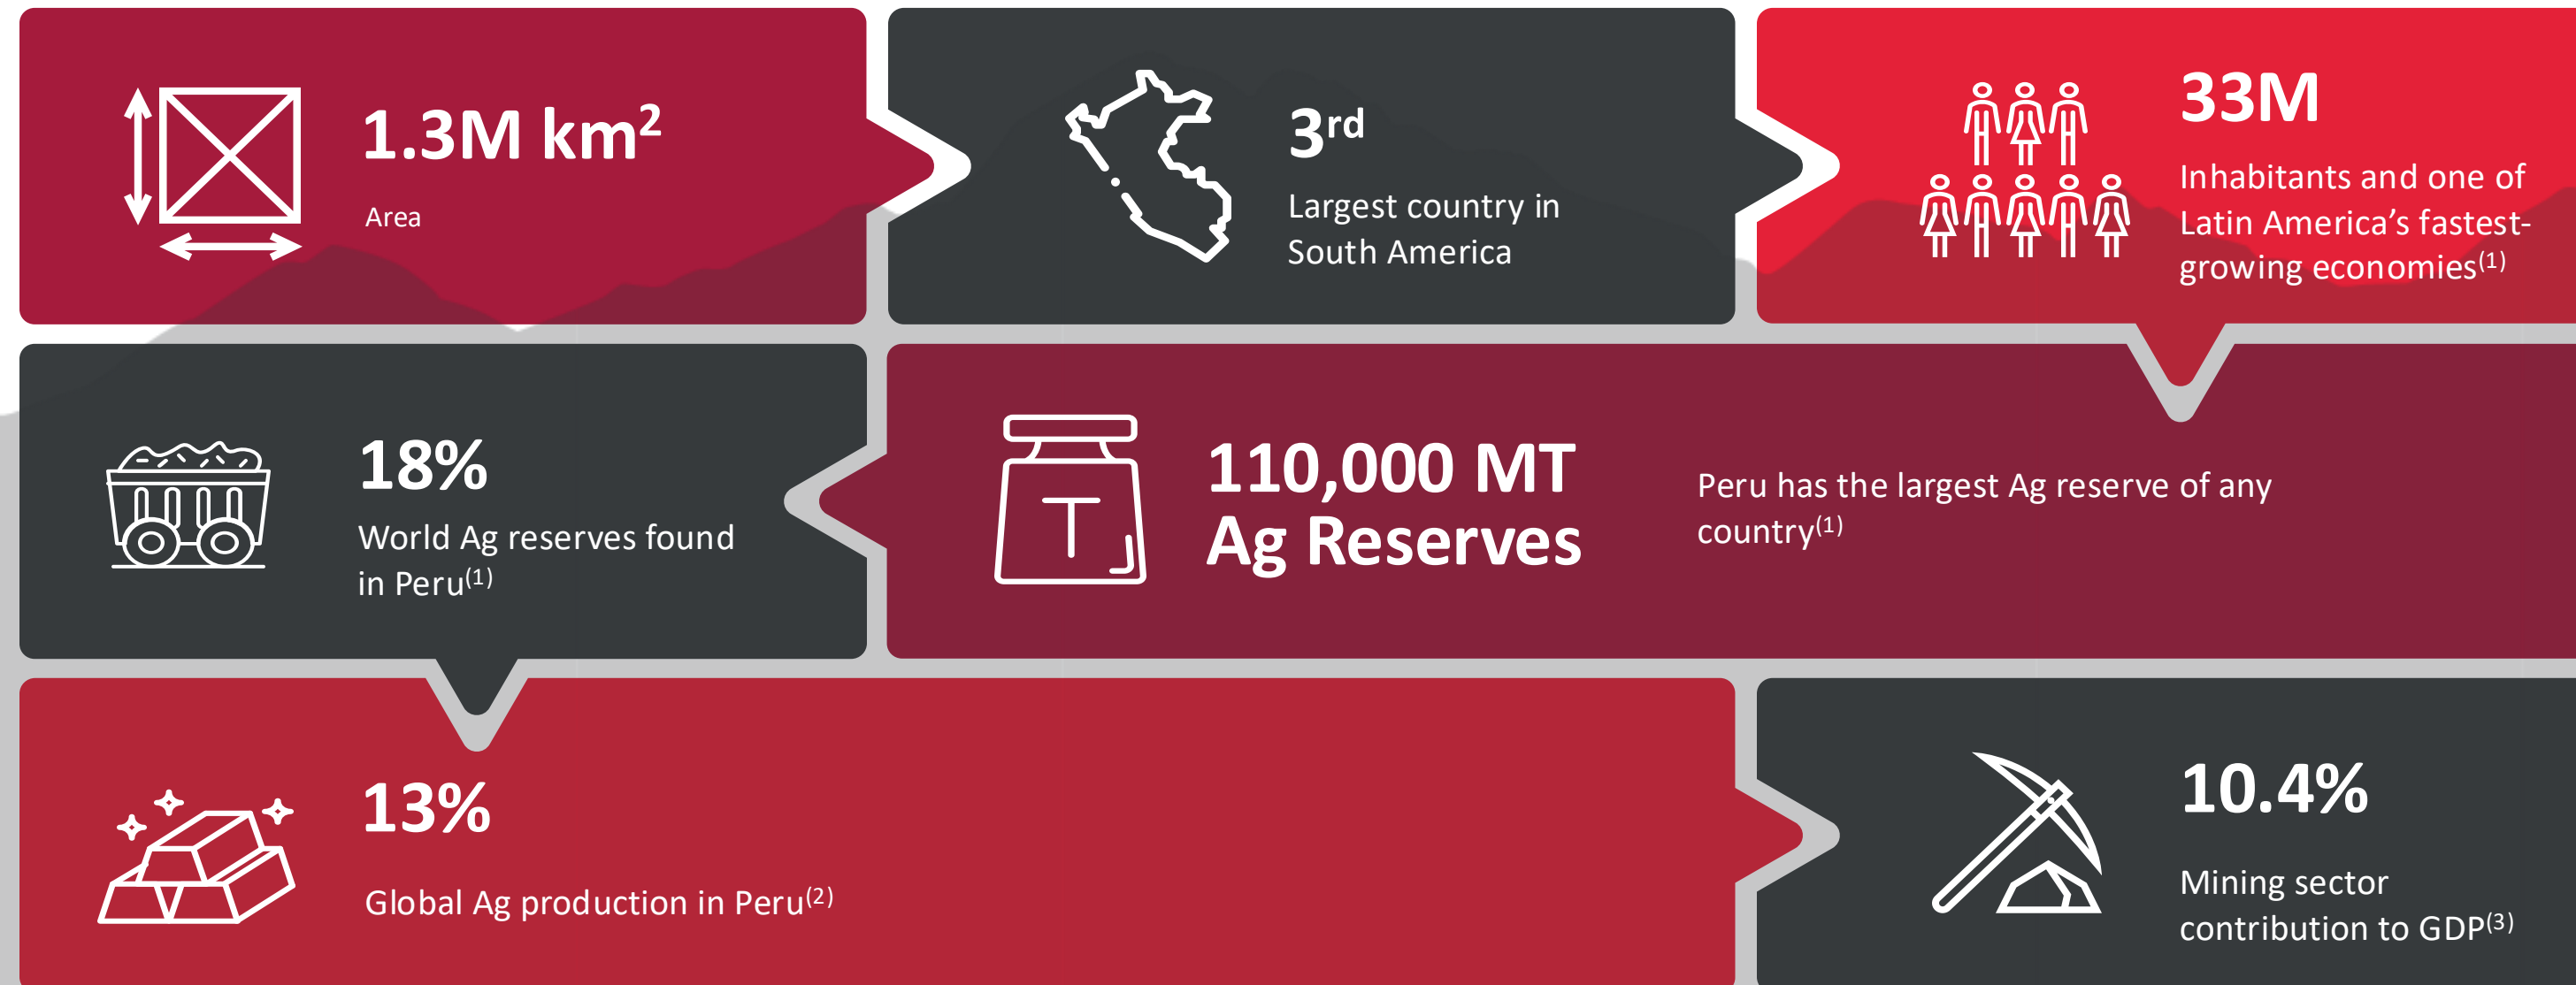

Silver entered a structural market deficit in 2023

"In 2024, silver has emerged as one of the top-performing commodities, surging by more than 30% and outpacing even gold." – Chen Lin, *Lin Asset Management*

THE SILVER X ADVANTAGE: A GROWTH STORY

Increasing Production

- Tangana Mine Unit producing at **600 tpd**
- Expanding to **720 tpd** (~2Moz AgEq/yr)
- Focusing on silver, gold, lead and zinc extraction
- New Plata Mine Unit expected to come online in 2025

Growing Resources

- Robust organic growth pipeline of production, development and exploration assets
- In 2023, Silver X increased M&I resources **4x** vs previous year
- Active **~3,800-Ha. Plata Mine Unit** with **17** surface-exposed mineralized veins (0.6-1.0m)
- Previous historic mining operations extracted **1.8M MT** with average Ag grade of **16.03 oz/t**

Outstanding Potential

- Silver X boasts a significant land package spanning **20,472 hectares**
- Extensive vein fields with **+200 targets** and **+500 veins and splits** identified
- Historical production accounts for **+200Moz Ag** produced in **30km radius**
- Mines and concessions acquired from industry leaders such as Buena Ventura, Pan American Silver, and Barrick Gold

THE NUEVA RECUPERADA PROJECT SILVER & GOLD DISTRICT

A 20,472-Hectare Fully Permitted District-Scale Land Package in Central Peru

NUEVA RECUPERADA SILVER & GOLD PROJECT

Production

- Tangana Mining Unit

Development

- Plata Mining Unit

Exploration

- Brownfield expansion
- Victoria HS Gold
- Red Silver

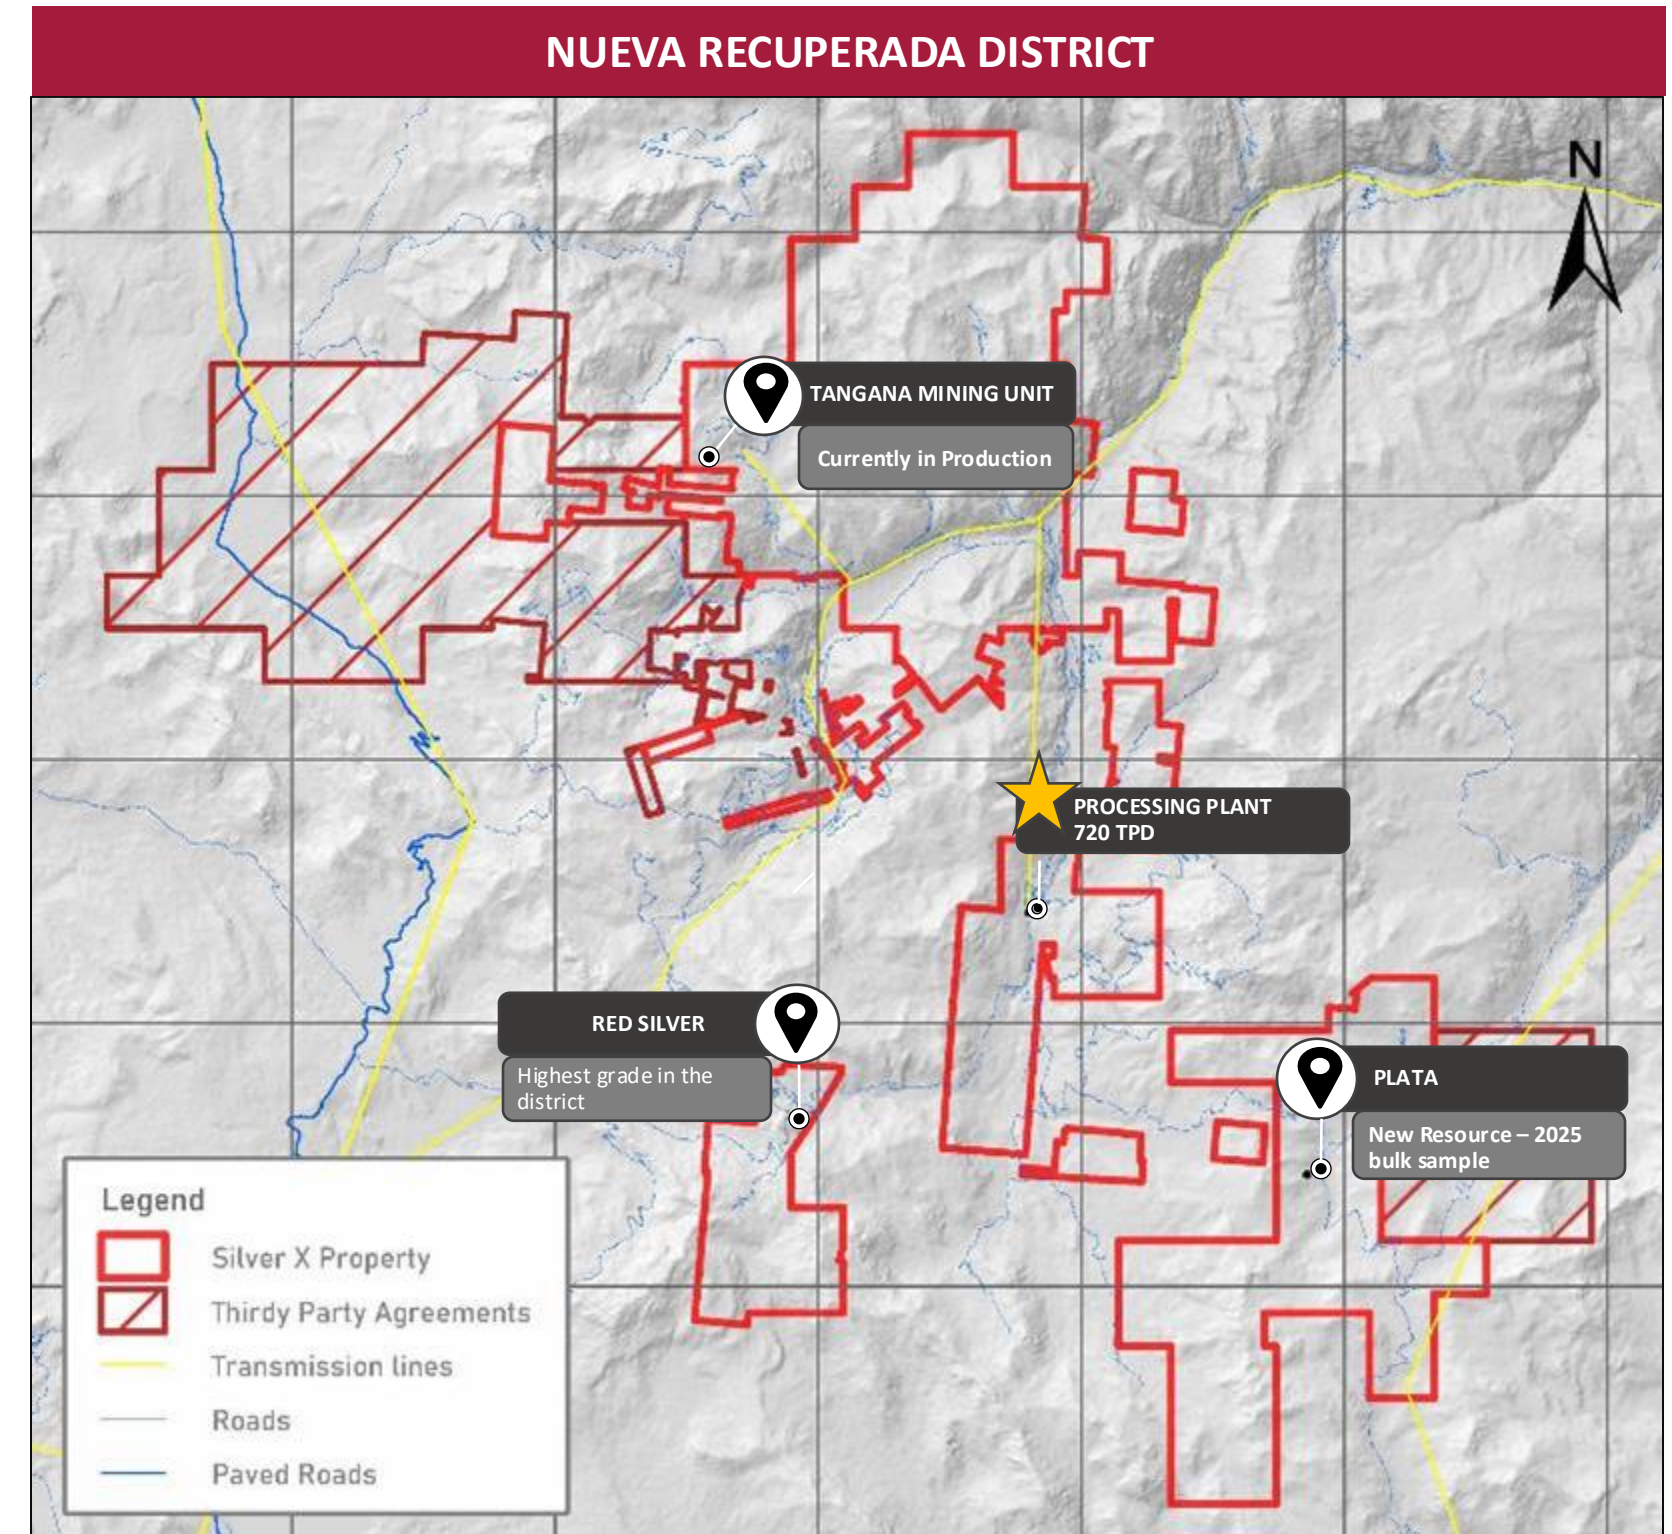

PROJECT HIGHLIGHTS

Location: Huachocolpa mining district in Huancavelica, Peru, 540 km from Lima.

District Scale: 20,472 Ha. Nueva Recuperada district-scale land package

Infrastructure: Historical mining operation provides road access, water supply and transmission lines

Community: Long-term community agreements for 100% of project, provide ample area for planned expansion and development

ATTRACTIVE GEOLOGY: NUEVA RECUPERADA PROJECT

A multi-vein project located in Central Peru containing medium to high-grade of silver-rich polymetallic mineralization

20,472
hectares

230
mining concessions

+500 km
outcrops

- The property covers a large area within the Huachocolpa mining district containing Ag/Au/Pb/Zn/Cu epithermal veins and other deposit types mainly hosted in Cenozoic volcanic rocks.
- Estimated **11.89 million metric tonnes of inferred resources** at grades of:
 - 152.50 g/t Ag ▪ 0.31 g/t Au ▪ 1.72% Pb ▪ 1.79% Zn
- Combined Measured and Indicated Mineral Resources (M&I) of **3.61 million metric tonnes** with grades of:
 - 152.50 g/t Ag ▪ 0.31 g/t Au ▪ 1.72% Pb ▪ 1.79% Zn

720
tpd
Fully permitted

Path to 6 Moz

the production potential for Silver X, driven by a robust organic exploration, development, and production pipeline.

NUEVA RECUPERADA SILVER PROJECT

Significant Potential for Resource Growth and Conversion

- **Feb 2021:** Technical Report for the Nueva Recuperada Project, Peru – 7.4 metric tonnes Inferred Resources
- **Jun 2022:** Technical Report for the Nueva Recuperada Project, Peru – 0.85 metric tonnes Measured & Indicated, 14.9Mt Inferred Resources
- **Apr 2023: PEA - Technical Report for the Nueva Recuperada Project, Peru – 3.61 metric tonnes Measured & Indicated, 11.89 metric tonnes Inferred**

	Grades						Contained Metal				
	Mt	Ag (g/t)	Au (g/t)	Pb (%)	Zn (%)	AgEq (g/t)	AgEq (Moz)	Ag (Moz)	Au (Koz)	Pb (kt)	Zn (kt)
Nueva Recuperada											
Measured	1.94	80.50	1.91	1.87	1.17	325.63	20.31	5.02	119.13	36.28	22.70
Indicated	1.67	59.50	0.96	1.67	1.39	233.82	12.55	3.19	51.54	27.89	23.21
Total M&I	3.61	70.82	1.47	1.78	1.27	283.16	32.86	8.22	170.28	64.26	45.85
Total Inferred	11.89	152.50	0.31	1.72	1.79	307.30	112.05	58.30	119	204.51	213.83

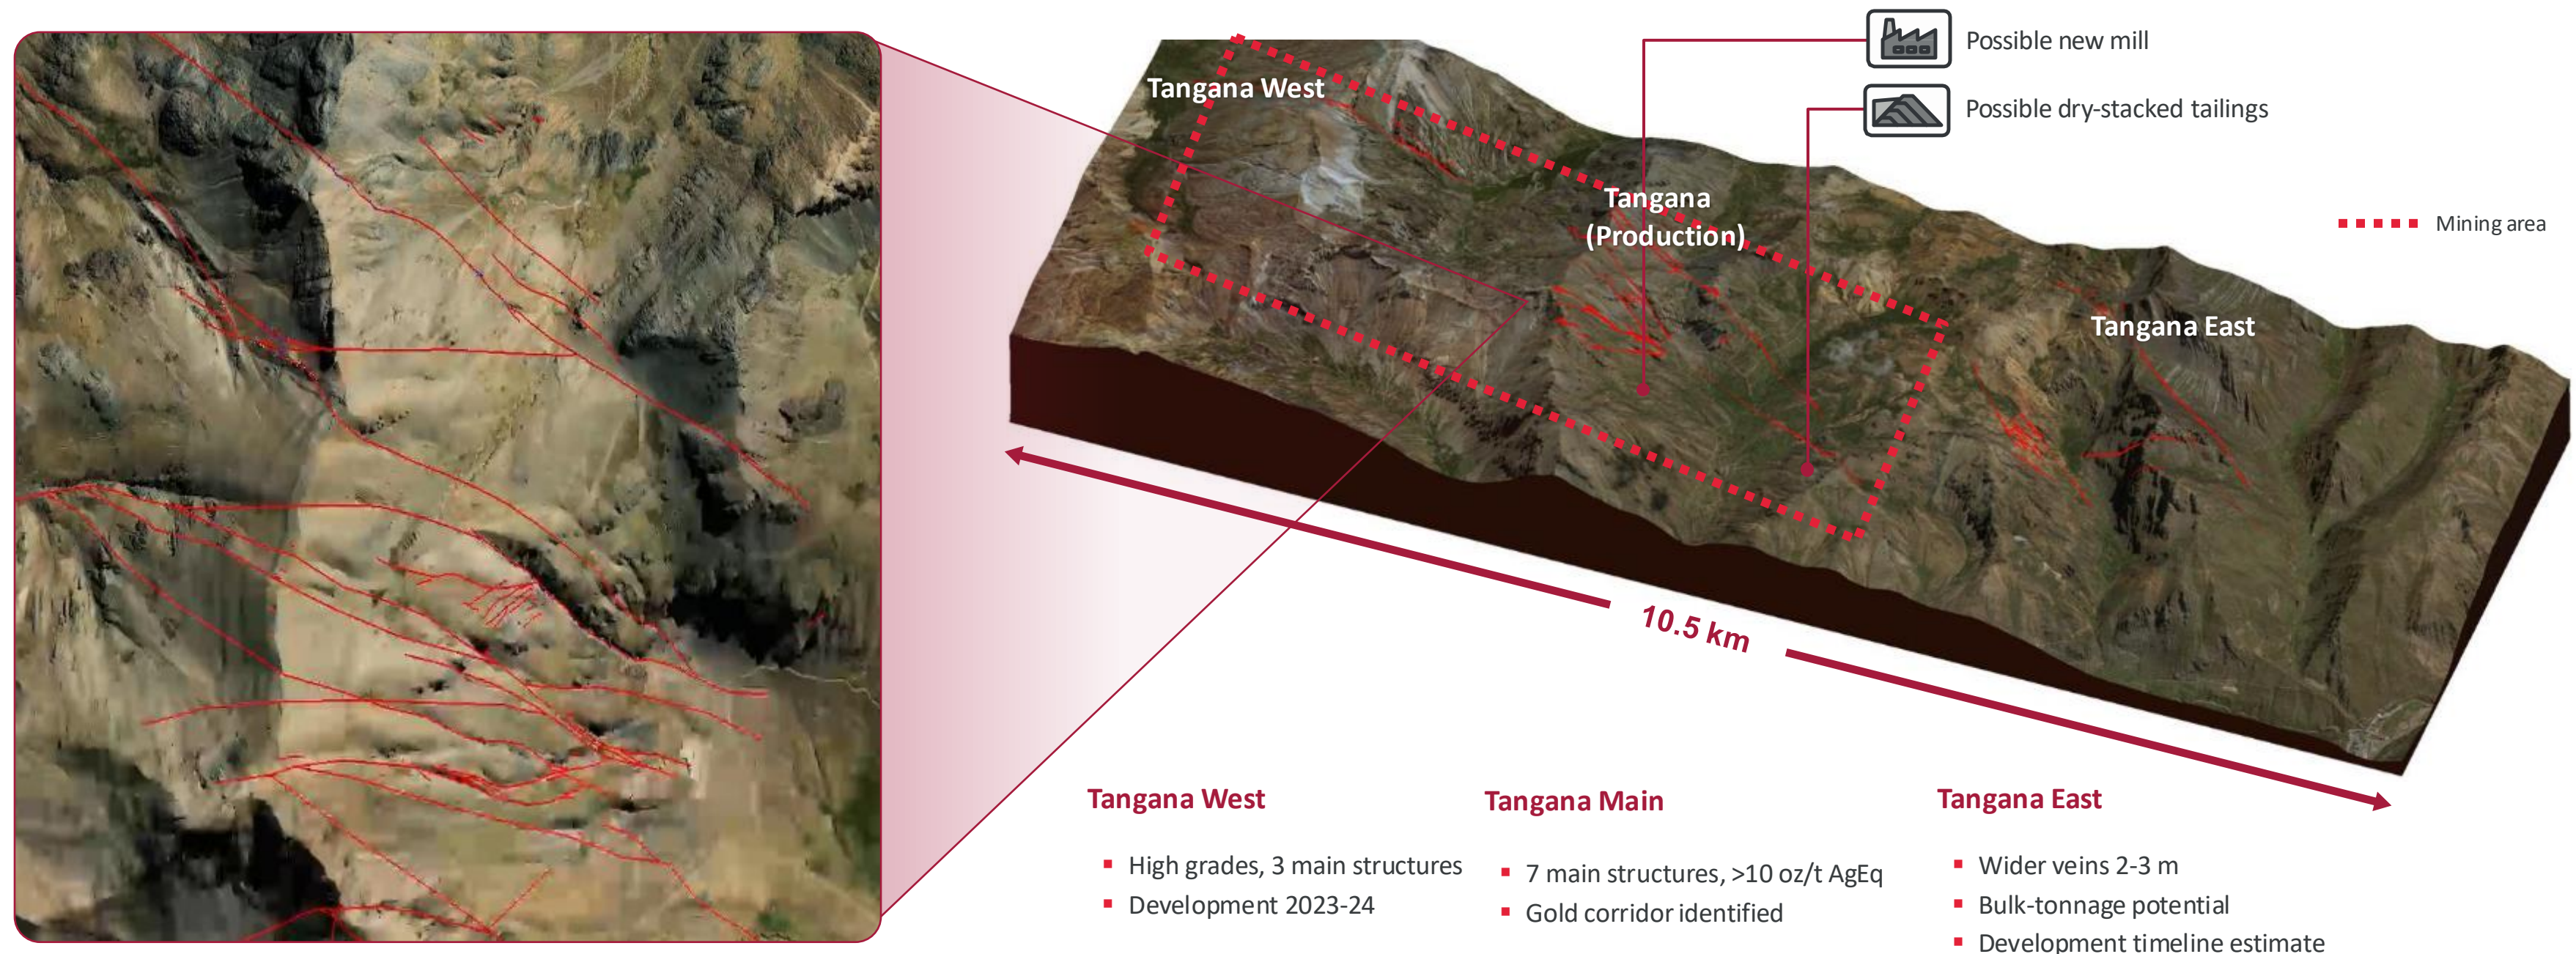

4X growth in M&I within one year | Similar amount of inferred, mostly conversion on existing resources

Notes:

- The independent QP for the mineral resource estimate, as defined by NI 43-101, is David Heyl, P.Geo. The effective date is October 31, 2022.
- The estimate is reported for an underground, conventional cut and fill scenario.
- The mineral resource estimate includes two resource models: 1) A block model defined for the core of the resource, estimated through the drilling and mine development; geo-statistical method is the reverse of the distance; 2) a polygonal model for some of the inferred resources based on veins outcrops and surface sampling.
- The approximate cut-off grade applied to all resources is \$60/t.
- Metal prices considered for the calculation of silver equivalent ounces (“AqEq”) as of the effective date of publication were: Ag: US\$22.56/oz; Au: US\$ 1,746.11/oz; Pb: US\$0.93/lb.; Zn: US\$ 1.25/lb.
- These Mineral Resources are not Mineral Reserves as they do not have demonstrated economic viability.
- The Mineral Resource estimate follows CIM Definition Standards.
- The QPs of this PEA are not aware of any known environmental, permitting, legal, title-related, taxation, socio-political, marketing, or other relevant issues that could materially affect the Mineral Resource estimate other than those disclosed in the February 2023 NI 43-101 compliant Technical Report.

NUEVA RECUPERADA PROJECT: TANGANA MINING UNIT

The Tangana Mining Unit commenced commercial production in January 2023, with current production focusing on 10% of the resource

TANGANA: A MULTI-VEIN DEPOSIT

Silver, Gold, Lead & Zinc

SILVERX

720 tpd
Fully permitted

1,500 tpd
Additional capacity
indicated in 2023 PEA¹

Tangana Mining Unit Development

- Silver X initiated the development of Tangana 1 and 2 veins in late 2021.
- Tangana encompasses 966 hectares, showcasing Ag-(Au)-Base Metals mineralization in intermediate sulfidation epithermal veins.

Ideal Mining Unit Location

- Polymetallic vein resources hosted in igneous-volcanic and sedimentary rocks.
- Located in a large zone of andesitic volcanics and domes with epithermal to mesothermal mineralization.

Near-Term Development Plans

- Prioritizing mine development along the strike of Tangana 1 and Tangana 2.
- Principal cross-cut being driven to the Cauca vein for multiple development fronts.
- Planning development to access nearby high-grade structures, including Cauca, Morlupo, and Tangana 2 veins.

¹For more information on the PEA, see details from news release dated February 14, 2023, available at www.silverxmining.com

SILVER X'S Q3 2024 PRODUCTION VOLUME & FINANCIAL HIGHLIGHTS

For the three months ended September 30, 2024.

\$5M Revenue
3Q 2024

+139%
YoY Revenue

Adjusted EBITDA of (\$0.1M) vs. Adjusted EBITDA of (\$1.0M) in 3Q23

+197% Ore Processed vs. 3Q23

Processed 330 koz AgEq, 258 koz AgEq produced

-32% Cash Cost per Tonne vs. 3Q23

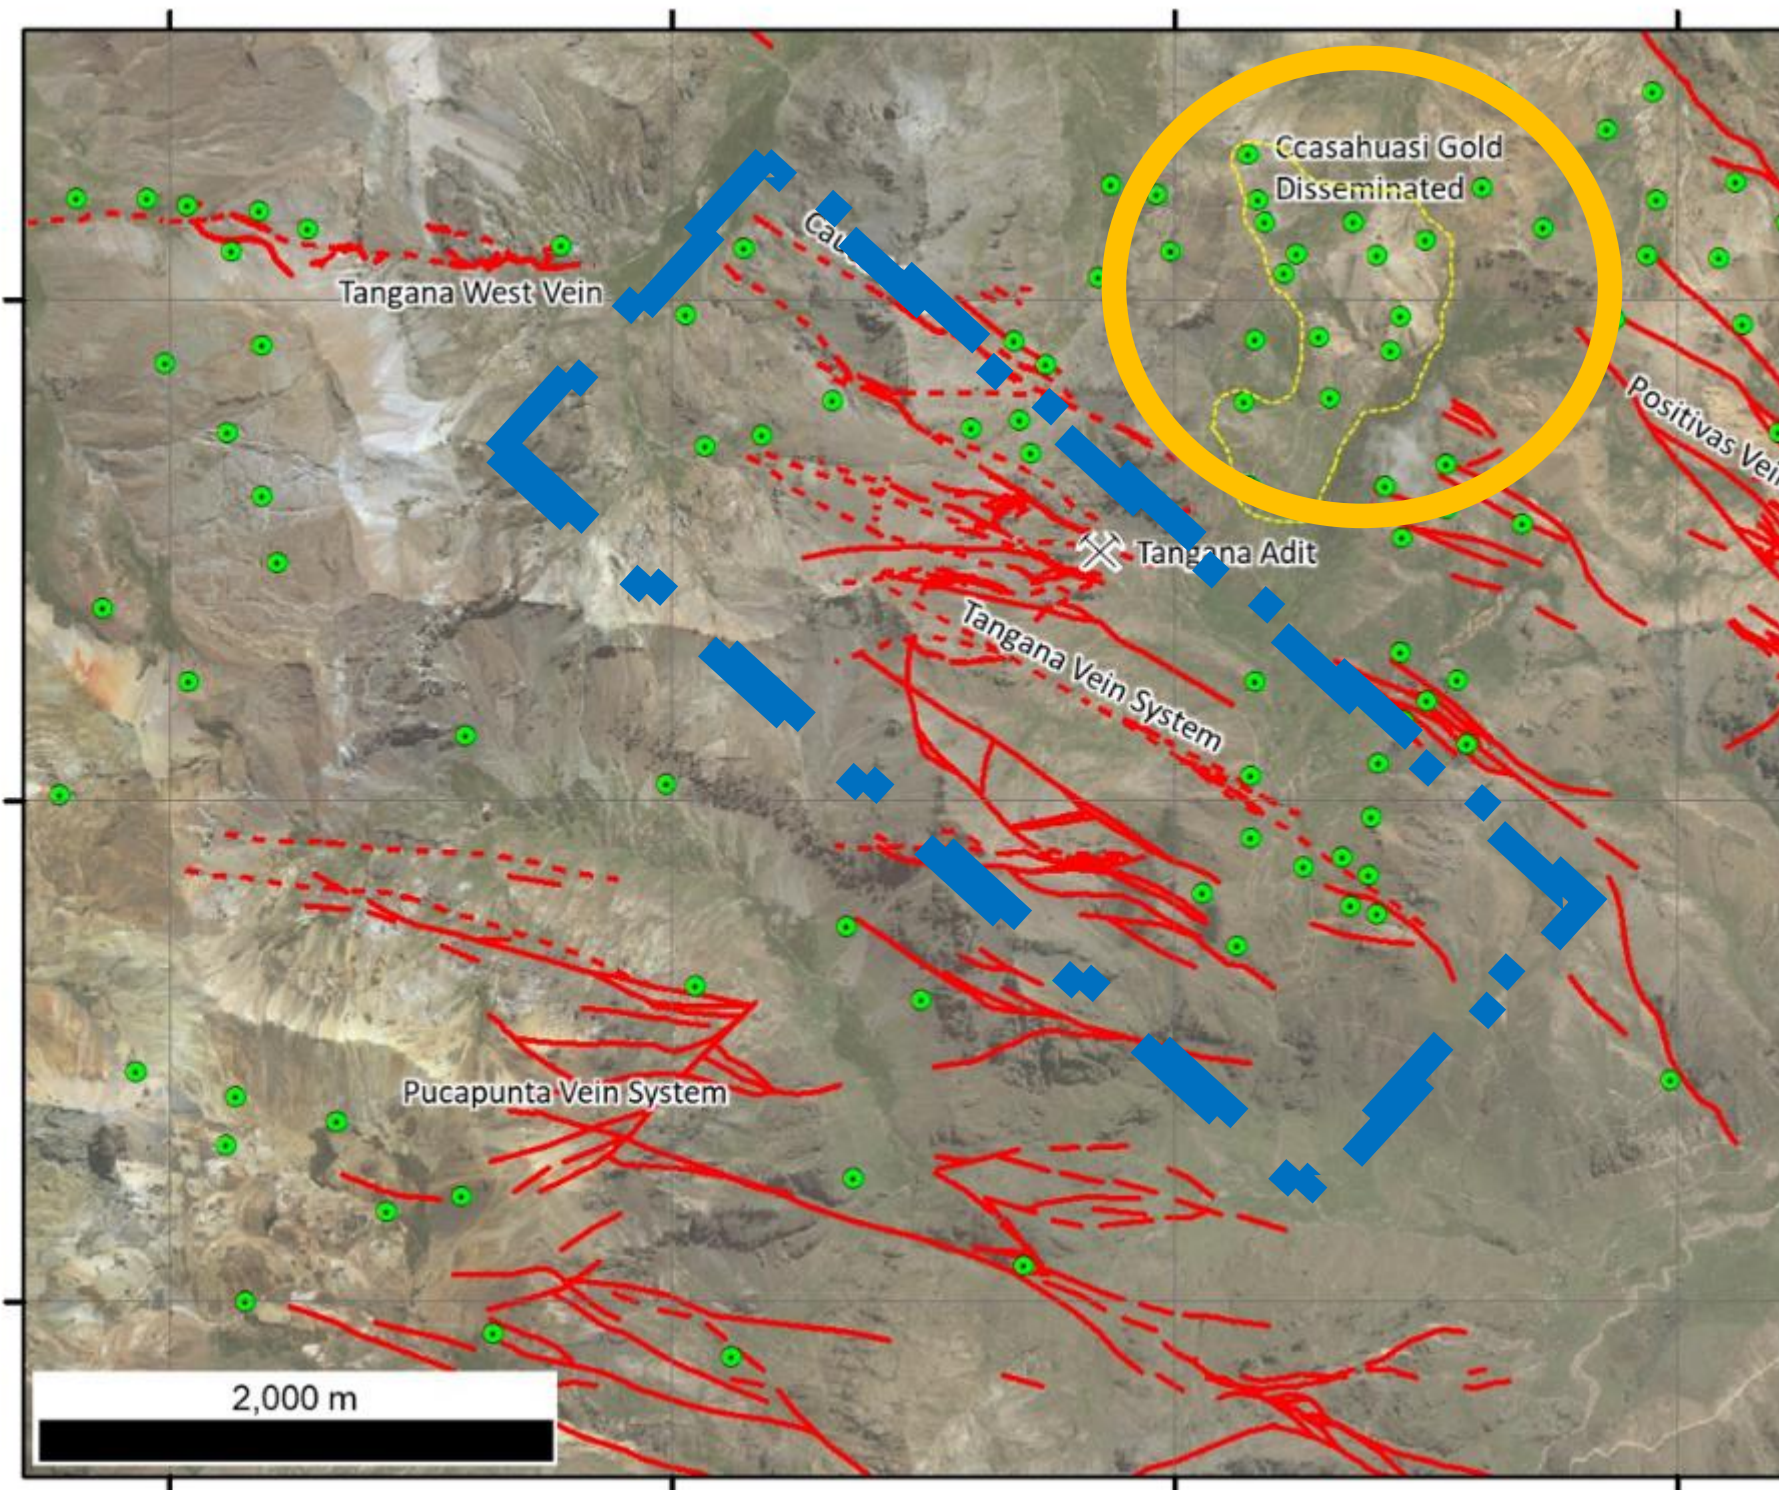

Quarterly Production and AISC per AgEq 4Q 2022 through 3Q 2024

Note - As announced on November 5, 2024, AGX revised its ASIC calculation methodology from 1Q23 onwards.

The Company uses cash costs, cash costs per AgEq ounce produced, AISC, and AISC per AgEq ounce produced to manage and evaluate its operating performance in addition to IFRS measure because Company believes that conventional measures of performance prepared in accordance with IFRS do not fully illustrate the ability of its operations to generate cash flows. The Company understands that certain investors use these measures to determine the Company's ability to generate earnings and cash flows for use in investing and other activities. Management and certain investors also use this information to evaluate the Company's performance relative to peers who present this measure on a similar basis.

TANGANA BROWNFIELD: KEEPING THE MOMENTUM

Unlocking Value By Exploring the Rich Vein Diversity of the San Antonio and Positivas Systems

San Antonio Vein (Southeastern Half):

- Hosted in Carbonate Formations
- Moderate to Thick Widths (2 to 10 meters)
- Average Width of 4 meters
- Mineralized Vein Breccia with Minor Carbonate Replacement
- Mined Since 2019

San Antonio Vein (Northwest):

- Hosted by Andesitic Volcanics and Domes
- Average Surface Width of 1.4 meters

Positiva Vein System:

- Area: 2.5 km long by 200 meters wide
- Tensional Veins in a Dilutional Wrench Zone
- Epithermal Veins in Volcanic and Sedimentary Rocks
- Width Ranges from 0.3 to 3 meters
- Currently Developed by Two Contractors
- Production Processed at Company's Mill

Ccasahuasi GOLD Target – Next to Tangana:

- Disseminated gold on surface
- Au-polymetallic mineralization
- Under evaluation in 2025

¹For more information on the PEA, see details from news release dated February 14, 2023, available at www.silverxmining.com

TANGANA MINING UNIT **PATHWAY TO GROWTH**

Positive PEA results support increase in production and processing capacity to 2,200 tpd

Mineral Resource Upgrade

- **M&I Resources:** 3.61 Mt (from 0.98 Mt in 2022) – 4x Growth
- **Inferred Resources:** 11.89 Mt (from 14.94 Mt with new block model)

Life of Mine (LOM)

- **Life of Mine (LOM):** 12 years
- **Capacity** 1,500 tpd
Based on 5.75 Mt inventory (1.75 Mt measured, 0.4 Mt indicated, 3.51 Mt inferred)

Robust Production and Economics

- **Average Annual Production:** 4.2 Moz AgEq*
- **Total AgEq Mined:** 5 Moz AgEq
- **After-Tax NPV:** US\$175 million (10% discount rate)
- **IRR:** 39%

Capital Expenditure

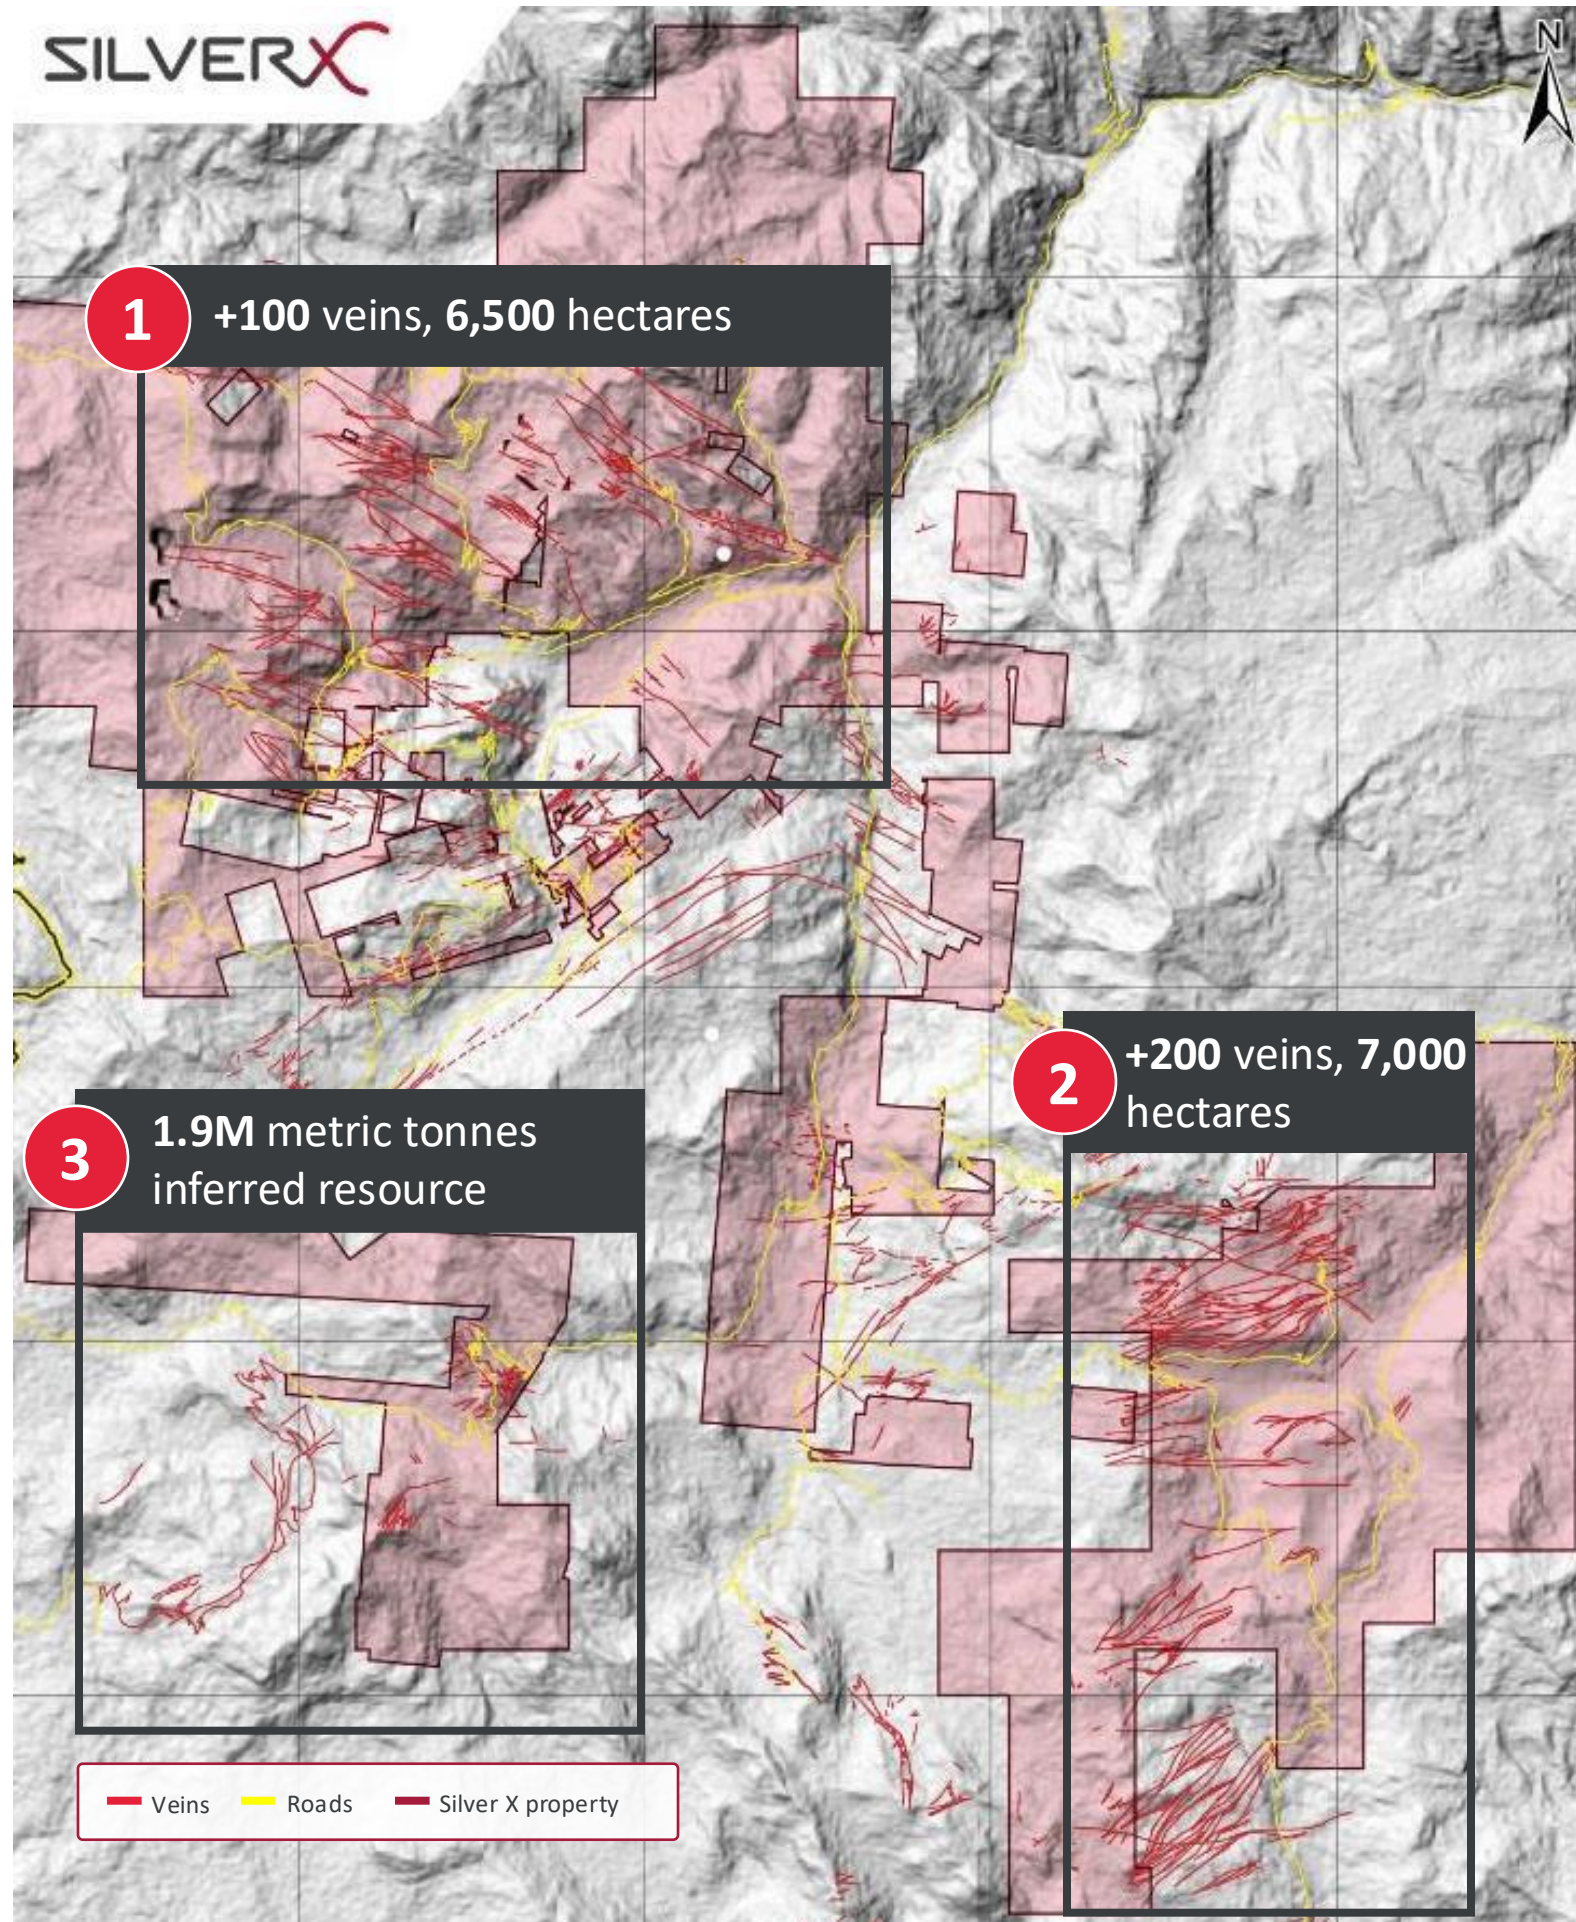

- **Initial Capex:** US\$61 million – for the new processing facility, dry-stacked tailings and mine development

4X M&I resource growth and tripling current production by 2026-28

* Silver equivalent ("AgEq") ounces produced were calculated based on all metals produced using the average sales prices of each metal for each month during the period. Revenues from concentrate sales does not consider metallurgical recoveries in the calculations as the metal recoveries are built into the sales amounts.

For more information, see details from news release dated February 14, 2023, available at www.silverxmining.com.

NUEVA RECUPERADA PROJECT: MINERALIZATION & HIGH-GRADE TARGETS

1

Tangana Mining Unit

Large number of veins across an expansive area exceeding 6,500 hectares.

- 2023 PEA: Growth from current 600 tpd to 1,500 tpd, 4.2 Moz AgEq
- LOM 12 years, impressive brownfield potential

2

Plata Mining Unit

Highest grade in the district. Historic silver-polymetallic veins, offering substantial exploration potential in the project's southern region.

- 2022 NI 43-101: 448,812 metric tonnes @1.08m @ 7.10 ozAg, 2.55%Pb, 4.58%Zn for 16.71 AgEq oz/t.
- New Resource expected within 2024

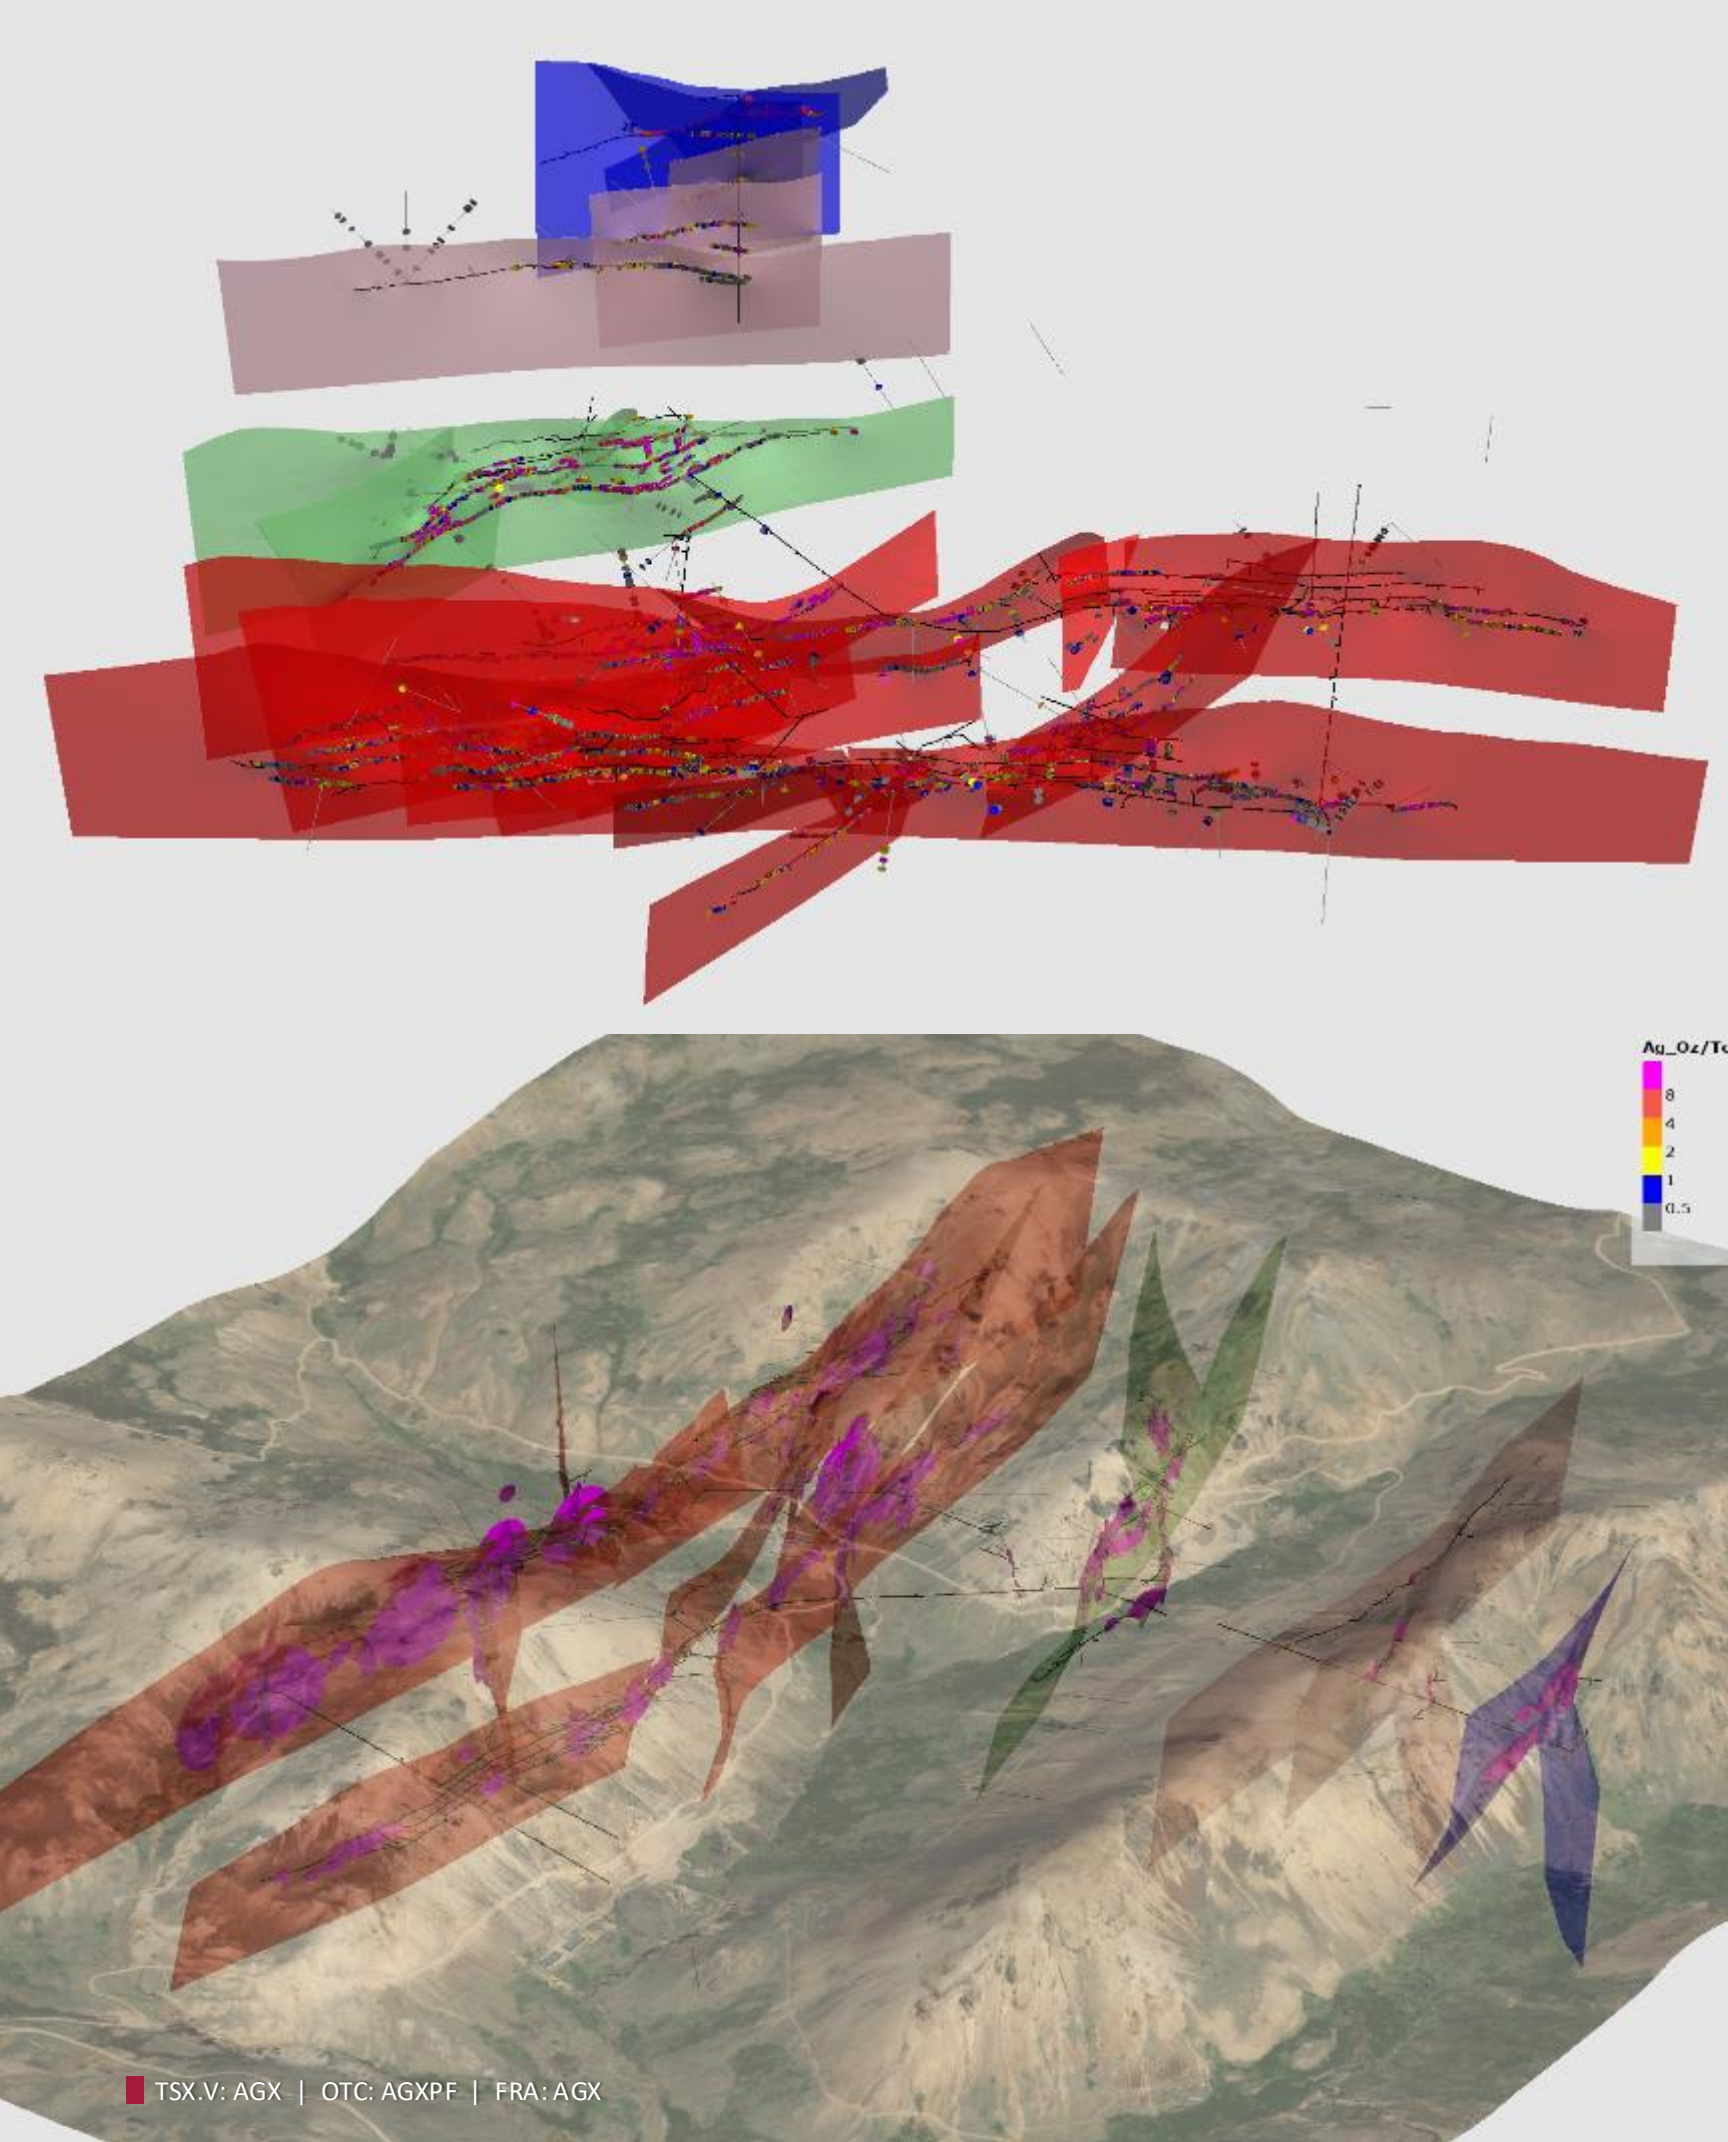

3

Red Silver Mining Unit

Inferred resource of 1,908,725 metric tonnes, grading 496.10 g/t Ag, 0.21% Pb, and 0.34% Zn. Following a bulk sampling initiative in 2021

UPCOMING RESOURCE: PLATA MINING UNIT

Looking for the High-Grade

Strategic Location

- 150 km east of Peru's Pan American highway, easily accessible by paved road

Extensive Vein System

- 3,829 hectares with 17 surface-exposed mineralized veins
- Veins range from 0.6 to 1.0 meters wide, connected to the Chonta and Huachocolpa-Huancavelica major fault systems

Inferred Resources

- Historical inferred resource of 448,812 tonnes grading 220.81 g/t Ag, 2.55% Pb, and 4.58% Zn

Historical Production

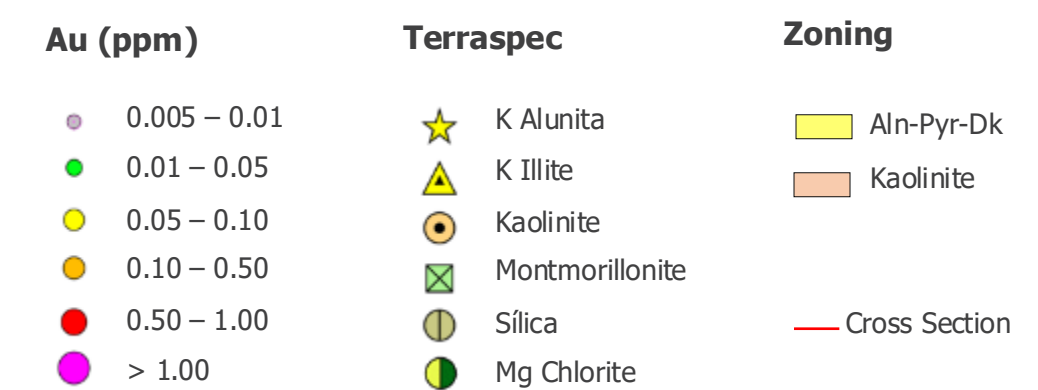

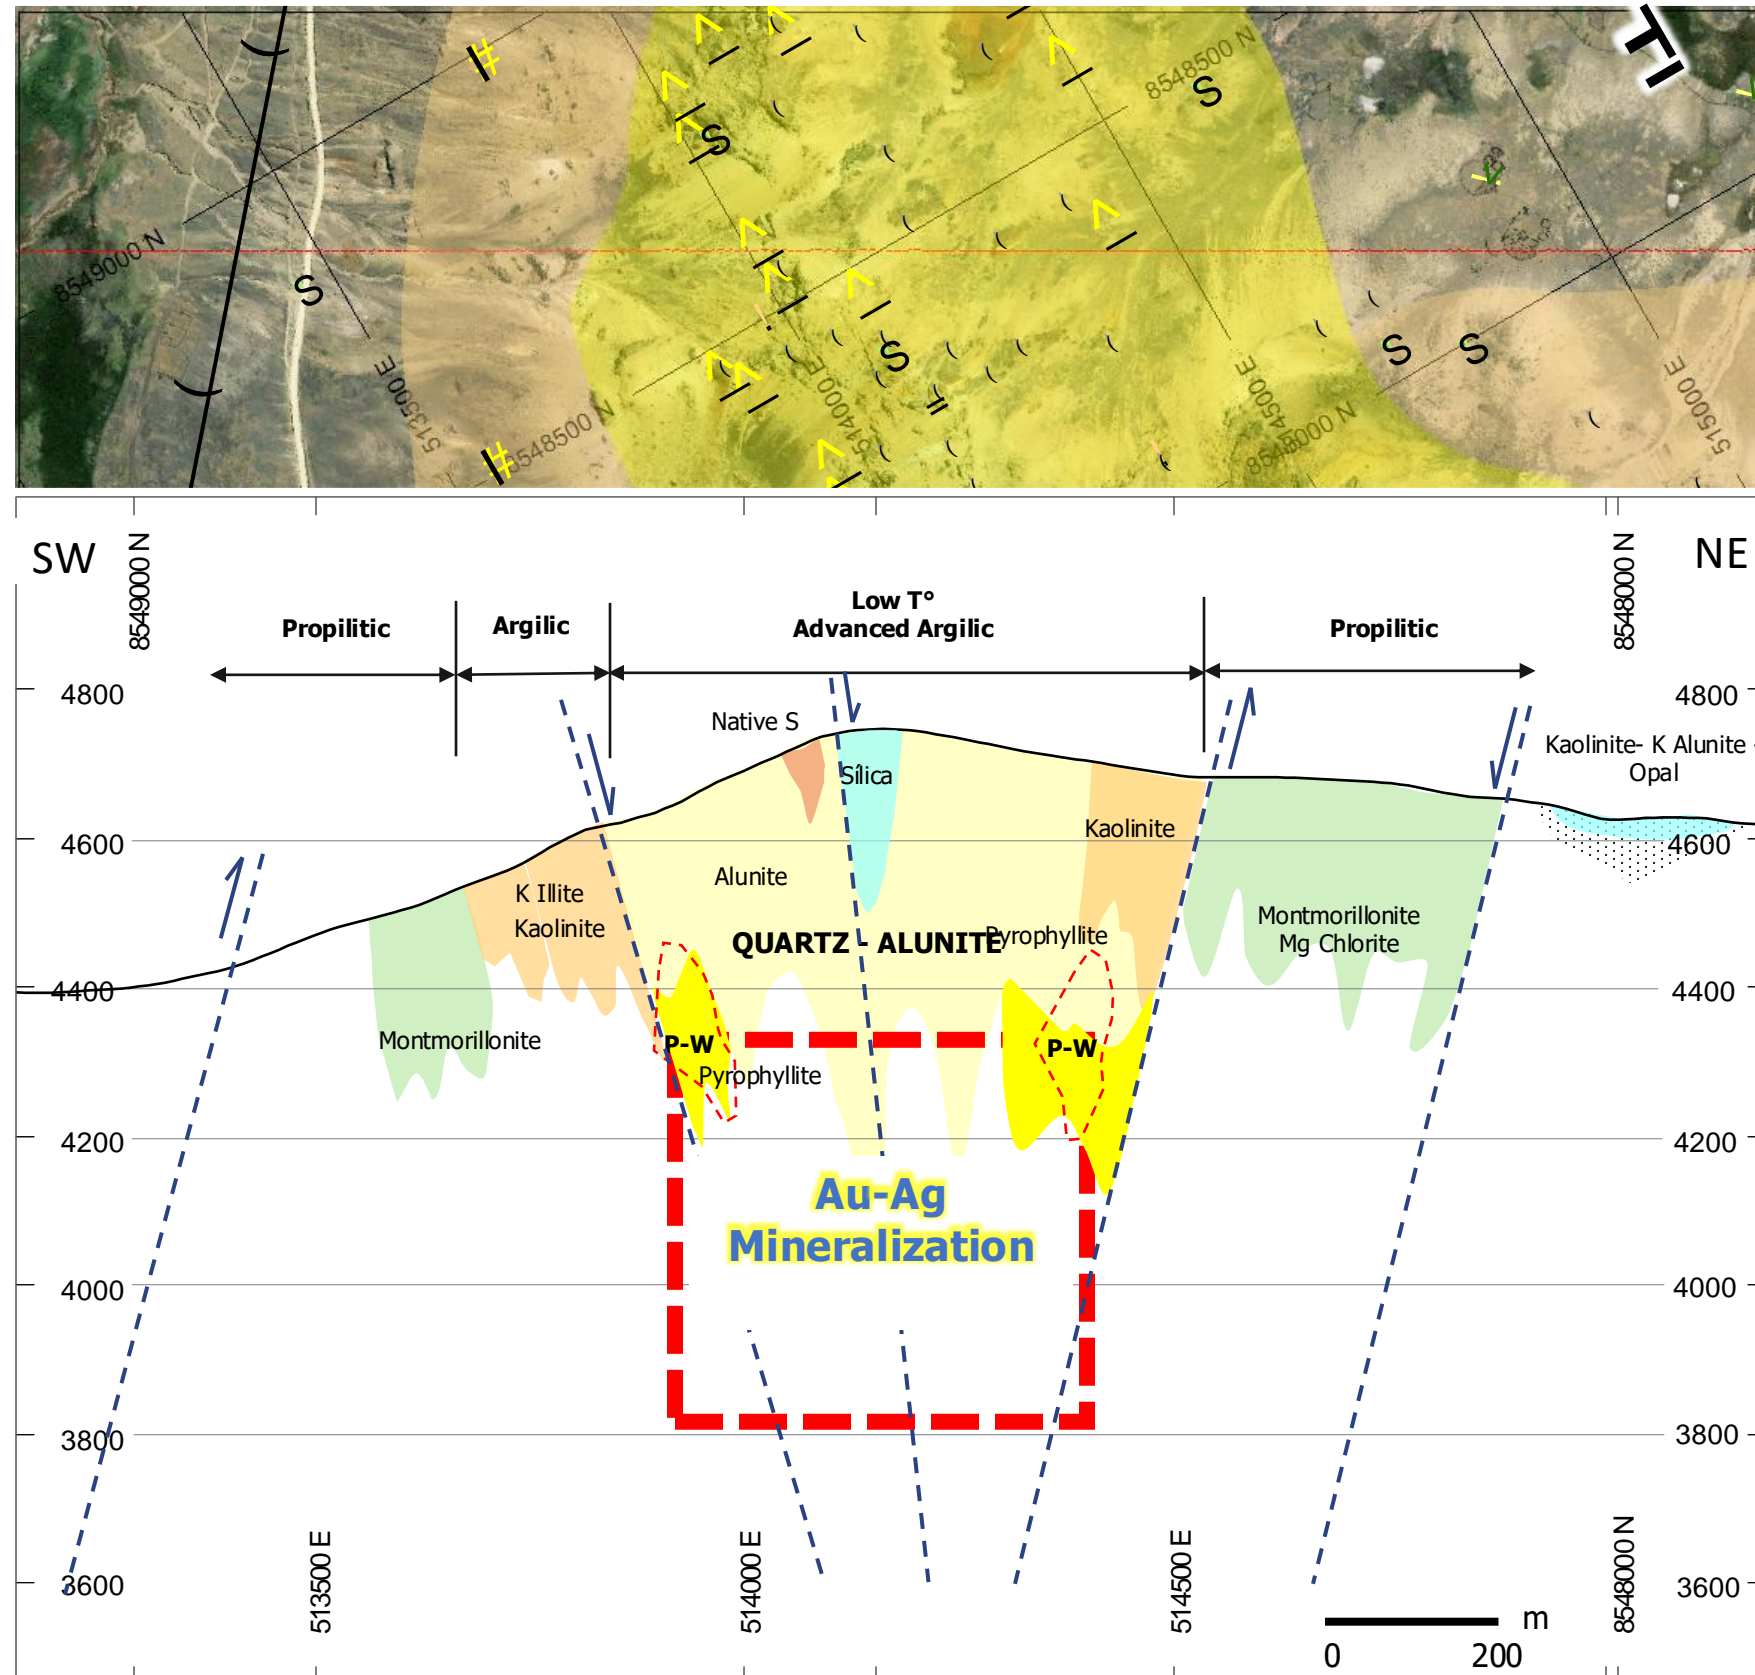

- ~1.8 million tonnes extracted with an average AgEq grade of 16.03 oz/t

High-Grade Exploration Potential

- Higher-grade mineralization identified below 4460 meters above sea level, highlighting untapped exploration potential

OUTSTANDING GOLD TARGETS: VICTORIA & CCASAHUASI

SUSTAINABLE DEVELOPMENT THROUGH MINING

Building a legacy in Huancavelica

\$ 3,100,000

in purchase of goods and services from local suppliers.

1,136,268

silver equivalent ounces processed in 2023.

180,000

KG of solid waste recycled.

+32

local companies working with us.

65%

of our employees (non-professional) come from Huachocolpa, Huancavelica.

99%

of water is recirculated in our underground operations.

100%

compliance with environmental requirements.

>150

Employees from local Community

100%

established the Huachocolpa Foundation.

Long-term agreements

- Extension of social agreement with the Huachocolpa community-2023 to 2035
- New Agreement with Carhuapata for 15 years, period 2024-2039

THE SILVER X ADVANTAGE: A GROWTH STORY

Increasing Production

- Tangana Mine Unit producing at **600 tpd**
- Expanding to **720 tpd** (~2Moz AgEq/yr)
- Focusing on silver, gold, lead and zinc extraction
- New Plata Mine Unit expected to come online in 2025

Growing Resources

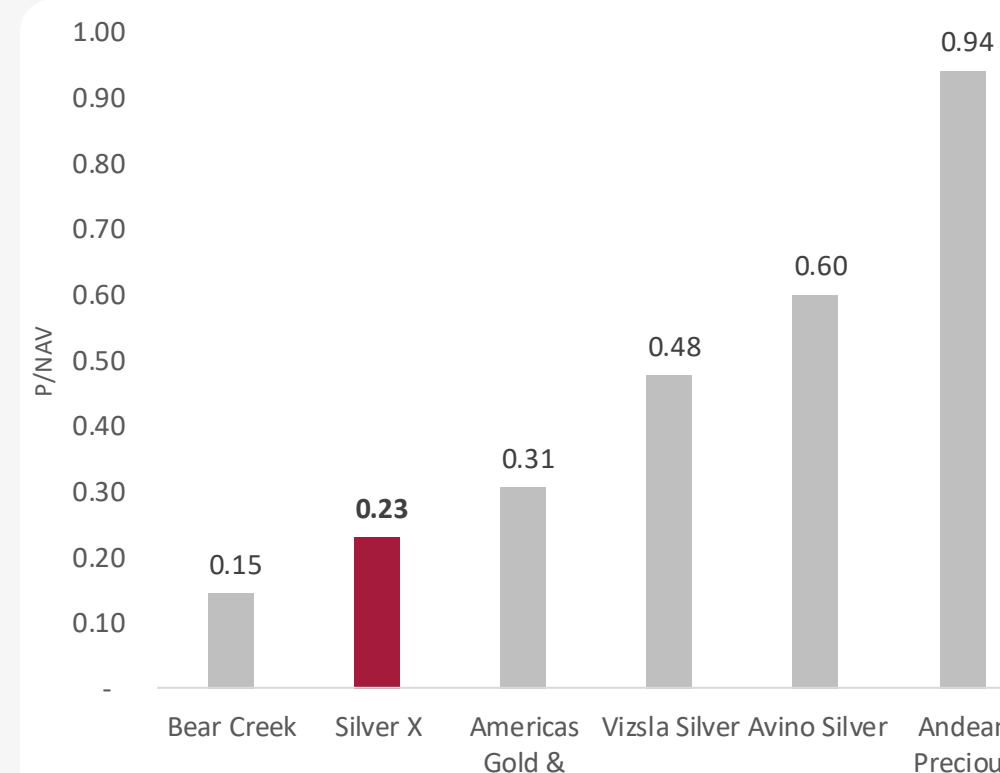

- Silver X boasts a significant land package spanning **20,472 hectares**
- Extensive vein fields with **+200 targets** and **+500 veins and splits** identified
- Historical production accounts for **+200Moz Ag** produced in **30km radius**
- Mines and concessions acquired from industry leaders such as Buena Ventura, Pan American Silver, and Barrick Gold

Outstanding Potential

- Robust organic growth pipeline of production, development and exploration assets
- In 2023, Silver X increased M&I resources **4x** vs previous year
- Active **~3,800-Ha. Plata Mine Unit** with **17** surface-exposed mineralized veins (0.6-1.0m)
- Previous historic mining operations extracted **1.8M MT** with average Ag grade of **16.03 oz/t**

Silver X is trading at only
0.23x P/NAV

- One of the highest discounts among silver-producing peers, offering a compelling entry point

Note: Figures as of September 30, 2024.

MANAGEMENT AND BOARD OF DIRECTORS

Experienced Management and Board - Proven Track Record

Management

José M. García | CEO & Director

Co-founder of predecessor company, Latitude Silver. +20 years as Mining Engineer with operation and production experience in Peru, Chile, Spain, Australia & Switzerland with Anglo American, Inmet & BHPB. World Economic Forum Leadership Fellow.

Freddy Mayor | COO

+40 years of experience in executive and operational leadership roles in the mining industry. Freddy is a Mining Engineer with a degree from Pontificia University Catolica of Peru. He is an MBA from ESAN and a M. Sc. Mining Engineering from National University of Engineering.

David Gleit | CFO

+25 years of experience leading international mining, construction, and asset management firms. Previously CFO of Sierra Sun Group, CFO and corporate strategy & risk officer at STRATCON and Corporate Development Officer at Volcan Compañía Minera. He holds an MBA in Finance from Drexel University and a BA from the University of Vermont.

Board of Directors

Francis Johnstone | Director

+12 years as Investment Advisor to BSRT, London Stock Exchange listed specialist resources Investment Company. Active in the mining business as both Executive and Non-Executive Director of a number of junior mining companies, listed and unlisted.

Darryl Cardey | Independent Director, C.A

Principal at CDM Capital. Co-founded Northern Empire Resources (acquired by Coeur) & Underworld Resources (acquired by Kinross). Founder, Director at Otterburn Resources (subsequently K92 Mining Inc). Seasoned Director, experienced in governance and HR.
